

Sustainable Finance Geneva – Member of the Executive Committee

Nathalie Haym

Title: Portfolio manager

Company: [Lombard Odier Darier Hentsch](#)

Biography

Nathalie graduated from ESSEC in 1987. She first joined Banque Indosuez as a money-market fund manager, but rapidly moved to different brokers to trade government and corporate debt. In 1992 she joined Crédit Lyonnais (Paris) where she acquired extensive experience in emerging market debt, high yield and distressed credit.

In 2002 her career took a new turn as she moved to Geneva, to work first with Crédit Agricole, and then with Lombard Odier Darier Hentsch, where she started as a Fixed Income advisor. Since 2009 she's been a portfolio manager and she has started developing an SRI approach for private clients.

Areas of Expertise

Fixed Income instruments, credit analysis, asset allocation, portfolio management, microfinance.

Why is SFG important to you and/or why does sustainable finance in Geneva matter to you?

It is possible to encourage and support the sustainable development of our societies within the financial sphere and on an individual level :

- By behaving in a responsible way as an investor, with a long term view
- By incentivizing the companies we invest in to develop the best practices in relation with the environment, their stakeholders and their governance.
- By constantly questioning our clients on the values they would like to see reflected in their investments, and by keeping them informed on the tools and processes that make that possible.
- By sharing experience and knowledge with our peers.

As a platform that enables Geneva's financial professionals to communicate with the best SRI specialists, SFG is instrumental in raising SRI awareness and making its development possible, in an original bottom-up approach, from individual to organizational level.
