Why is SFG important to you and/or why does sustainable finance in Geneva matter to you ?

Personally committed to sustainable development issues, I am very pleased to participate actively in the development of this initiative. It is to me a way of sharing opinions on the subject and learning from other members' experiences. I am excited to be part of such a talented group with high ambitions and a strong development potential. SFG, through its multi-disciplinary approach, is a unique opportunity to raise awareness on sustainable finance and responsible investment in Geneva and in the world, and I think that such a group has a very promising future in Geneva.
