

Sustainable Finance Geneva Co-Founders Bios

Ulrike Kaiser-Boeing

Title: Head of Institutional Sales Switzerland

Company: [Dexia Asset Management](#), Geneva Branch

Biography

As head of institutional sales Ulrike Kaiser-Boeing is responsible for the business development of institutional clients in Switzerland. With her team of 3 relationship managers she covers end-investors (e.g. pension funds, insurance companies) as well as intermediaries (e.g. banks, independent asset managers), focusing especially on Dexia Asset Management's offer of sustainable investments. Before that, she was at Lombard Odier Darier Hentsch & Cie, where she worked first as an equity analyst and changed later into the business development in fund distribution. Previously, she developed training programs for traders at the International Finance & Commodities Institute (IFCI) in Geneva. Ulrike holds a degree in Business Administration from the University of Cologne, is a CFA charterholder and member of the Board of the Swiss CFA Society.

Areas of Expertise

Social and responsible investments (SRI) and micro-finance, integration of SRI into portfolio management, asset management in general.

Why is SFG important to you and/or why does sustainable finance in Geneva matter to you ?

I am convinced that it is important to take ESG factors into account when making investment decisions. Many investors still do not look at these factors, as they still lack knowledge and understanding what sustainable investments are. Sustainable Finance Geneva can contribute to provide a better understanding of sustainable finance. With already a lot of actors in sustainable finance present in Geneva as well as with a strong financial and international community, Geneva is predestinated to become the centre of sustainable finance.
